

You are invited to: Coffee, Conversation & Curriculum

Tuesday, September 30, 7-8:30am in the
McMillan Magnet Center Library
3802 Redick Ave.

We invite community members and parents to join us in conversation about our fantastic school and the opportunities we provide our students everyday. We will share information regarding our Project Lead the Way courses in Science, Technology, Engineering, and Math, in addition to our rich curriculum in all content areas that support student academics as well as social, emotional well-being. We will also provide tours and an opportunity to visit a class. In addition, we would like to join together in discussion with our community to help reduce the violence in North Omaha. Please problem solve and strategize with us in how we can build a safer community.

Please RSVP by Monday, September 28, if you can attend—

402-557-4505 or jeaneen.talbott@ops.org
