Project Awards Given For:

- **Project Explanation**: Students will be able to explain the concepts and topics learned throughout the project and will be able to explain the process of research, design, creation, and polishing the finished product.

- **Presentation Skills**: Students will engage the audience by using proper speaking techniques, interacting with listeners, and by utilizing technology or presentation aids to enhance the presentation.

- **Representation and/or Demonstration of Project**: Students will present their project in a visually pleasing, error free, and audience friendly format. Demonstration reinforces student knowledge of content and clarifies any questions from the audience.
